

Tiggywinkles

the world's busiest wildlife hospital

Every year in Britain over five million wild animals and birds are injured as a direct result of their encounters with man and man's world.

Since Tiggywinkles was first set up in 1978, they have taken in and cared for over 200,000 sick, injured and orphaned creatures. This remarkable number has included hedgehogs, badgers, rabbits, deer, wild birds - even snakes and toads. Our doors are always open and our service is free of charge to the general public.

To help Tiggywinkles - join us on...
