

# *Tiggywinkles*

*The Wildlife Hospital Trust*

**Tiggywinkles has been committed to the care of sick and injured British wildlife for over twenty-five years, and since opening its doors has treated over 200,000 animals.**

This remarkable number has included hedgehogs, badgers, rabbits, deer, wild birds even snakes and toads, all receiving the highest level of care. Our doors are always open and our service is free of charge to the general public.

As well as rehabilitating thousands of wild animals each year, Tiggywinkles also deals with over 70,000 telephone calls through 24 hour wildlife helpline.

The charity survives on a solid base of membership and relies on donations and corporate sponsorship to thrive.

It receives no funding from Government sources.

**"No sick, injured or orphaned wild creature is ever turned away"**
