**You can help sick, injured and orphaned wild creatures by becoming a Friend of Tiggywinkles**

**No sick, injured or orphaned British wild creature is ever turned away.**

Since we began, Tiggywinkles has taken in and cared for over 300,000 sick, injured and orphaned creatures. This remarkable number of patients has included hedgehogs, badgers, rabbits, deer, wild birds - even snakes and toads. Our doors are always open and our service is free of charge to the general public.

No suffering wild creature is ever turned away - the majority of our patients are treated successfully and are released back into the safety of their own habitats.

We care that they should be able to live, as they were born, healthy and wild. Those that cannot be released live out their lives in a natural garden environment in our Visitor Centre.

**For every £25 received, we can care for one more animal or bird.**

## Why these helpless victims need your friendship today

We need to be able to buy our patients the best food and medication, as well as provide them with the latest in specialist veterinary techniques. We rely so much on the generosity of our friends, caring people like you, to do so much. **Every penny counts.**

**Tiggywinkles has done much pioneering work in wildlife healthcare - help us save more lives.**

## Vera's story

This poor hedgehog was found down a drain, missing many of her spines and suffering severe skin problems.

We suspect this was a result of an acid attack - possibly a household drain cleaner. It was obvious that she was suffering badly and we were only pleased to have the opportunity to help her in her recovery.

Having attempted several treatment plans, our nursing team found Aloe Vera to be the secret and, after several months of care, 'Vera' made a full recovery, grew back her full complement of spines and was safely released back into the wild for a second chance!
